JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 31 May 1973

25X1

1. [] Met with Bill Hogan, House Armed Services Committee staff, and delivered to him the followup material from the Intelligence Subcommittee hearings of 11 May and 24 May. With regard to the statements submitted by [] Secretary to the DDCI, he requested that when the originals of the memorandums are returned from the White House the Committee will want to see them for possible final resolution of the question relating to the differences between the copies submitted to the Committee and the copies utilized by General Walters during his testimony.

25X1A

Hogan said that Patrick Gray, in his testimony before the Committee this morning, made reference to a two and a half page memorandum given him by General Walters in either the meeting of the 6th or the 12th of July 1972. Hogan asked that I identify the memo for him and provide a copy if one is not already available in the Committee files

25X1

2. [] Met with Chairman Lucien Nedzi, Intelligence Subcommittee, House Armed Services Committee, and refreshed his recollection of the prior briefing given him concerning the Intelligence Evaluation Committee and staff. I assured him once again that our contribution was one of providing foreign intelligence input and some limited editorial review. Although the matter still puzzles him, he has no further question at the moment.

Chairman Nedzi told me that in this morning's testimony before the Subcommittee Patrick Gray had flatly contradicted General Walters' testimony with regard to General Walters' statements that he had advised Gray he was acting under White House instructions. See Memorandum for the Record.

Nedzi gave me a mimeograph notice concerning the establishment of a Justice Department command post in Miami before the convention. He asked if I would advise him if the Agency participated in the command post in any fashion and whatever other information we might have on this matter.

[] staff, has been advised.
